## Education

### Chaitanya Bharathi Institute of Technology, Hyderabad, Telanagana

2021 - 2025

*Bachelor of Engineering in Computer Science and Engineering*

*CGPA: 9.75/10.0*

### New Vision Junior College, Khammam ,Telanagana

2019 - 2021

*Higher Secondary Education(Telangana State Board of Intermediate Education)*

*Marks: 986/1000*

### Harvest Public School, Khammam ,Telanagana

2009 - 2019

*Secondary Education(Central Board of Secondary Education)*

*Marks: 453/500*

## Projects

### Depression Detection from Social Media

May 2024

- I conducted a Natural Language Processing project where I analyzed Twitter messages to classify whether they conveyed depressive sentiments or not. Using a Multinomial Naive Bayes algorithm, I developed a model to automatically categorize tweets based on their content. This approach involved preprocessing the text data, extracting relevant features, and training the classifier to recognize patterns indicative of depressive messages.
- The project aimed to provide insights into the emotional content of social media posts, potentially aiding in early detection or monitoring of mental health issues through computational methods.

### Online Course Portal

Jan 2024

- This website seamlessly navigates users through a curated selection of courses, offering a streamlined membership experience for accessing premium content. With user authentication, it empowers learners to mark their progress, view registered courses, and track their educational journey with ease.
- Leveraging the power of Next.js, This website boasts a captivating interface with elegant styling of Shadcn UI. Seamlessly authenticated through Clerk, it securely stores data with Hygraph, Razorpay gracefully handles secure payment transactions. A harmonious blend of cutting-edge technologies ensures a refined digital experience.

### Ecommerce Website

August 2023

- Experience seamless online shopping with our Django-based e-commerce website. Browse, add to cart, and purchase functionalities. Enjoy a convenient shopping experience with user authentication and advanced search functionality .
- Crafted with HTML and CSS, Django seamlessly orchestrates the database and authentication, weaving a secure and visually appealing digital tapestry.

## Technical Skills

**Languages:** Java, Python, C , SQL

**Development and Frameworks:** HTML, CSS, Javascript, ReactJS, Tailwind CSS, NextJs, Django

**DataBase:** MySQL

**Tools:** Visual Studio ,IntelliJ, PyCharm, Eclipse, Git, Blender ,Canva ,Postman ,vercel.

**Other:** Data Structures, Operating Systems, Computer Networks, Object Oriented Programming, Data Base management systems, Software Engineering, machine learning, Compiler Design , Technical Writing.

## Soft Skills

Observation | Presentation | Decision making | Time Management | Communication | Problem solving | Multi-tasking | Teamwork | Leadership skills.

## Achievements

- Smart India Hackathon(College Level)** : Shortlisted for Smart India Hackathon at college level from CBIT.
- Sudhee Hackathon** : Secured 1st place in Sudhee 2023 conducted by the CBIT, Hyderabad in January 2023.
- Epitome Hackathon** : Secured 2nd place in Hackathon conducted by the GRIET, Hyderabad in December 2022.
- TS EAMCET 2021** : Secured Open Rank 1252 amongst 0.21 million candidates.
- Solved 200 + problems on LeetCode.

## Certifications

**Oracle Academy** : Java Fundamentals Certificate from Oracle Academy

**Coding Shuttle** : Data Structures Using Java

**Coursera** : HTML, CSS, JavaScript

**HackerRank** : Problem Solving,Python
